DETAILED ACTION

Drawings

Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 6,389,745 to Huh.

Regarding Claims 1-4, Huh teaches a film for carpet type lawn culture (Huh abstract line 1), wherein: the film is made of a synthetic resin (Huh Col. 2 line 29), and a plurality of drain holes (Huh Fig. 1 #11) are bored at a predetermined interval; the drain holes have a diameter of 5 mm to 15 mm (Huh col. 3 line 59-60 and Col. 5 line 48-50); the center distance of the drain holes is within a range of 30 mm to 40 mm (Huh Col. 5

line 49 and Col. 4 line 1-2); and have their total area corresponding to 2 to 20% of an area of the film (Huh teaches the claimed diameter and the claimed spacing of the holes and therefore inherently teaches the corresponding area).
